17. COMMITMENTS AND CONTINGENCIES

Operating environment

Kazakhstan continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Kazakhstan economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the Government.

17. COMMITMENTS AND CONTINGENCIES (continued)

Local market obligation

The Kazakhstan government requires oil producers to supply a portion of their crude oil production to meet domestic energy requirements. The price for such supplies of crude oil prior to April 1, 2016, was subject to agreement with the Parent Company and this price could have been materially below international market prices. If the Government does require additional crude oil to be delivered over and above the quantities currently supplied by the Company, such supplies will take precedence over market sales and will generate substantially less revenue than crude oil sold on the export market, which may materially and adversely affect the Company's business, prospects, financial condition and results of operations.

Starting from April 1, 2016 the Company ceased sales of crude oil to KMG RM and started tolling crude oil at Atyrau Refinery ("ANPZ") and Pavlodar Refinery ("PNHZ"), who are under the ownership and control of the Parent Company, and selling refined products on its own account. On January 1, 2017 the Company ceased using KMG RM as its sales agent.

In regards to refined products, the Kazakhstan government also requires to supply a major portion of oil products, specifically light distillates, to meet domestic fuel requirements and to support agricultural producers during spring and autumn sowing campaigns. This is achieved by either refusal to allow export of light distillates or by issuing quotas to supply agricultural producers. Local market oil products prices are significantly lower than international market prices and domestic prices for some of the refined products are regulated by the Committee for the Regulation of Natural Monopolies.

Taxation

Kazakhstan's tax legislation and regulations are subject to ongoing changes and varying interpretations. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan's tax laws are severe. Due to uncertainties associated with Kazakhstan's tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at March 31, 2017.

The Company's management believes its interpretations of the tax legislation are appropriate and that the Company has justifiable arguments for its tax positions.

2009-2012 Comprehensive tax audit

Based on the results of the 2009-2012 Comprehensive tax audit in 2015 the Company received a tax assessment for 38,512 million Tenge, including tax principal, administrative fine and penalty. The Company did not agree with the results of the tax audit and sent an appeal to the Committee of State Revenues. As per the decision of the Committee of State Revenue the amount of tax principal and penalty was reduced to 11,483 million Tenge. As per the decision of Special Interdistrict Administrative court of Astana the amount of administrative fine was reduced to 2,002 million Tenge.

The Company appealed the remaining amount of 13,486 million Tenge, which was fully provided as of December 31, 2016, to the appropriate courts. In March 2017, Administrative Court of Astana made a decision to reduce the principal amount of the claim further from 7,012 million Tenge to 3,263 million Tenge. Fines and penalties are subject to revision by the respective authorities and will be received in due course. As at March 31, 2017 the Company has a total provision of 6,075 million Tenge related to this claim, which is management's best estimate of the amount ultimately payable.

Environment

Environmental regulation in Kazakhstan is evolving and subject to ongoing changes. Penalties for violations of Kazakhstan's environmental laws can be severe. Other than those amounts provided for in provisions (Note 10) management believes that there are no probable environmental liabilities, which could have a material adverse effect on the Company's financial position, statement of comprehensive income or cash flows.

The Company is subject to periodic reviews of its activities by governmental authorities with respect to the requirements of its oilfield licenses and related subsoil use contracts. Management cooperates with governmental authorities to agree on remedial actions necessary to resolve any findings resulting from these reviews. Failure to comply with the terms of a license could result in fines, penalties, license limitation, suspension or revocation. The Company's management believes that any issues of non-compliance will be resolved through negotiations or corrective actions without any material effect on the Company's financial position, statement of income or statement of cash flows.

The Company's oil and gas fields are located on land belonging to the Mangistau and Atyrau regional administrations. Licenses were issued by the Ministry of Oil and Gas of the Republic of Kazakhstan.
