

**KazMunaiGas Exploration Production**  
**HEALTH, SAFETY & ENVIRONMENT**  
**POLICY**

KazMunaiGas Exploration Production JSC is aware of its responsibilities to ensure safe working conditions, environmental protection, and nature conservation.

**The Company's Health, Safety and Environment Policy has been formulated and adopted in accordance with the national development strategy, and sets out the following targets:**

1. Compliance with legislative and regulatory legal acts of the Republic of Kazakhstan
2. Compliance with international laws and agreements governing oil companies
3. Constantly improve the status of health, safety and environment, and provide control over achievement of targets set
4. Achieve results that would meet those of world's top oil companies
5. Establish effective procedures to develop and implement programmes that would continuously identify and help solve most critical problems
6. Minimize man-caused damage to environment that may be done by newly commissioned facilities by improving the quality of FEED with regard to health, safety and environment
7. Improve the effectiveness of operational control over compliance with occupational safety requirements, and environmental monitoring based on introduction of state-of-the-art information technology, engineering diagnostics methods, and remote sensing

**To attain the targets set the Company shall commit to:**

1. Ensure that its employees act in accordance with effective Health, safety and environment rules and regulations
2. Take any appropriate and commensurate measures to prevent accidents and mitigate their consequences
3. Continuously and consistently improve performance which may impact environment, employees and population
4. Ensure that natural resources are consumed in compliance with state-of-the-art technology
5. Introduce up to date technology and scientific research results to reduce stage by stage specific consumption of natural resources, materials and power at a maximum production output
6. Make management and production-related decisions and implement those decisions with specific attention paid to environmental aspects
7. Provide adequate control of the health and safety risks arising from Company activities, its products and services it provides;
8. Act in accordance with international standards
9. Ensure that the contractors/subcontractors are governed by the same rules and regulations as the Company
10. Engage all employees to be involved in resource-saving, and to take any appropriate measure to encourage and train employees at production facilities

11. Regularly update all parties concerned on actions taken by the Company to ensure health, safety and environment protection

12. Keep Company employees, public, executive bodies, regulatory bodies, partners and any party concerned updated on any amendment to the Policy
